

# Copper & Brass

## CHARACTERISTICS

Malleable & Ductile  
Excellent Alloying Characteristics  
Durable  
Good Conductor of Heat  
Excellent Corrosion & Fatigue Resistance  
Excellent Resistance to Weather

Excellent Electrical Conductor  
Resistant to Corrosion  
Recyclable  
High Strength  
Formable

Optimum combination of workability, performance, and economy

---

Copper Coil

Brass Coil

Copper Coil

---

## APPLICATIONS

Automotive  
Building  
Aerospace  
Shielding  
Circuit Boards  
Connectors  
Coinage  
Light Duty Springs  
Diaphragms

Transformers  
Electronics  
Batteries  
Gaskets & Shims  
Lead Frame  
Industrial Breakers  
Cartridges  
Contacts  
Light Duty Springs

Cable Wrap  
Appliances  
RFI-EMI  
Heat Exchanger Fin  
Telecommunications  
Light Switches  
Plumbing Fittings  
Electrodes
