

# GLOBAL BRASS AND COPPER, INC.

Dear Sirs:

Olin Brass has determined that our products comply with the requirements of the following European Union regulations/directives:

- Restriction on the Use of Hazardous Substance (RoHS) Directive
- End of Life Vehicle (ELV) Directive
- Global Automotive Declarable Substance List (GADSL)

Furthermore, our products contain none of the substances in the Substances of Very High Concern (SVHC) list published December 2008 under the Registration, Evaluation, Authorization, and Restriction of Chemical Substances (REACH) Regulation. Olin Brass has also determined that the strip products we sell are "articles" under REACH and therefore exempt from any registration requirement.

In addition to this, Olin Brass participates in the International Material Data System (IMDS), a tool to aid in compliance with the ELV.

This representation applies only to products as they are sold by Olin Brass. Each importer into the European Union should make its own determination as to whether products manufactured from or otherwise incorporating products sold by Olin Brass continue to comply with these Directives and Regulations.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Mark Copeland".

J. Mark Copeland
